ADHESIVES

Specification

Mannington Infinity 2 Adhesive Specification

DESCRIPTION

Infinity 2 Adhesive is a high-solids ultra-premium acrylic pressure sensitive adhesive for use with Mannington carpet. This product has been developed to address problems of moisture vapor emissions in concrete slabs. Infinity 2 Adhesive is the appropriate adhesive for installing Mannington's **Infinity® 2**, **Infinity® 2 MG**, **Infinity® 2 MG Cushion**, and **rEvolve®II** modular backing systems over porous and non-porous sub floors.

ADVANTAGES

- Easy Application
- Quick Grab
- No Solvents
- Low VOC's
- Non-Flammable
- Freeze / Thaw stable
- CRI GLP Certified

SURFACE PREPARATION

Infinity 2 Adhesive may be used over properly prepared concrete, wood, terrazzo, steel and other suitable substrates. Bring high spots level by sanding, grinding etc., fill and smooth low spots or rough surface. Use only high-quality Portland cement-based materials with a minimum 3000 psi compressive strength (ASTM C109). Mix with water only, do not use latex. The sub floor must be clean (free of dirt, dust, old adhesives, grease, wax, or other contaminants that may stain or prevent adhesion), smooth, flat, sound, fit for purpose, and free of movement. Concrete sub floors must be fully cured, clean, free from curing agents.

No Moisture Testing Required for Infinity 2 Modular or rEvolve II backing when installed with Infinity 2 Adhesive provided the slab meets ASTM F710 including the presence of an intact moisture vapor retarder per ASTM E1745 (Class B Minimum), is in direct contact with the concrete slab, no standing water, no free liquids present, no evidence of moisture staining, and no hydrostatic pressure, for porous installations only. PH testing is required with a limit of 12

For all other condition's or when the above requirements are not met, the Infinity 2 Modular or rEvolve II backing limits are in-situ relative humidity (maximum RH 95% per ASTM F-2170) and/or moisture vapor emissions (maximum 10 lbs./1,000 SF/24 hrs. per ASTM F-1869). Concrete must have a 12 pH (ASTM F-710). On-grade and below-grade concrete slabs must have an approved vapor retarder (ASTM E-1745) which is properly installed (ASTM E-1643).

No Moisture Testing Required for Infinity 2 MG and Infinity 2 MG Cushion backings when installed with Infinity 2 Adhesive provided the slab meets ASTM F-710 excluding the presence of an intact moisture vapor retarder, no standing water, no free liquids present, no evidence of moisture staining, no hydrostatic pressure.

INSTALLATION

After spreading the Infinity 2 Adhesive, allow adhesive to dry, no adhesive transfer to your finger. The working time will vary with the temperature, humidity, and porosity of the subfloor.

Specification

TROWEL SIZE AND COVERAGE

Over Porous / Non-Porous Surfaces: 1/16" x 1/32" x 1/32" U notched trowel / Coverage: 25 sq yd/gal

PACKAGING

Size: 1 gallon, 4 gallons

Order Code: 443637, 443639

Weight: 10 lbs., 40 lbs.

STORAGE

Store Infinity 2 Adhesive in climate controlled interior locations only between 50 - 90°F. Protect from freezing. Infinity 2 Adhesive is freeze/thaw stable to 10°F, but prolonged or repeated freeze/thaw cycles should be avoided. Should the Infinity 2 Adhesive freeze, allow to thaw at room temperature and stir well before using. Infinity 2 Adhesive has a one-year shelf life on unopened containers.

CLEAN UP

Wet adhesive should be immediately removed from tools or surfaces with a clean, soapy, damp cloth. Dried adhesive can be removed with denatured alcohol or adhesive solvent.

WARRANTY

Infinity 2 Adhesive is manufactured according to exacting quality control standards specifically for the installation of Mannington's tile carpet. Infinity 2 Adhesive is warranted to be free from manufacturing defects for one year. Mannington flooring products are backed by a limited Commercial Warranty for bond and manufacturing defects. The warranty term matches the product backing warranty which can vary by type.

Specification

FreLock Tabs (3x3) Specification

For Installation of Mannington's **Infinity 2** & Infinity 2 MG Modular Backings

CONSTRUCTION

Double-sided tape with fabric carrier

Backing:	Fabric Carrier
Adhesive:	Acrylic Dispersion
Liner:	Polyester, Silicone-coated

SPECIFICATIONS

Size:	3" x 3" (Perforated Tab)
Roll Length:	130 feet
Tabs per Roll:	500
Coverage:	With 24" x 24" modular tile: 150 sq. yds. (Monolithic or Quarter Turn) 100 sq. yds. (All other methods) With 18" x 36" or 12" x 48" modular plank: 110 sq. yds. (Monolithic) 80 sq. yds. (All other methods)
Thickness:	8.6 mil (without any liners), each liner ~3.5 mil
SAP Order Code:	385692 – 1 Roll
Shelf Life:	18 months from manufacture date on unopened containers
Moisture Limits:	<p>Infinity 2 - No moisture testing required with FreLock Tabs using the floating installation method provided the slab meets ASTM F-710 (except where explicitly allowed by our installation instructions) including proof of the presence of an intact moisture vapor barrier per ASTM E-1745 (Class B or Better) no standing water, no free liquids present, no evidence of moisture staining, or hydrostatic pressure and a pH level that does not exceed 12. If these requirements are not met, or when installing with the double stick method the limits are 95% RH / 10 lbs. CC / 12 pH</p> <p>Infinity 2 MG - No moisture testing required with FreLock Tabs using the floating installation method provided the slab has no standing water, no free liquids present, no evidence of moisture staining, or hydrostatic pressure.</p> <p>Infinity 2 MG Cushion & rEvolve II - FreLock Tabs are not approved for use with these backings.</p>

NOTE:

- No Moisture testing option is for floating installations only. Not applicable to Double Stick.
- Mannington's Universal Primer is required with all double stick installation methods.

Specifications are subject to nominal manufacturing variances. Specifications are subject to change without notice when shortages occur or when technological advancements provide improved product performance.

Integra 2 Adhesive Specification

DESCRIPTION

Integra 2 Adhesive is a premium acrylic based, permanent adhesive formulated specifically for use with Mannington's **Integra HP** backing system only. Integra 2 permits immediate installation of Integra HP and provides essential wet adhesive transfer from subfloor to Integra HP backing. Integra HP backing requires the transfer of wet adhesive before a secure bond can develop. It is suitable for both residential and commercial climate-controlled environments. Integra 2 Adhesive can be used over porous and non-porous subfloors.

ADVANTAGES

- No Solvents
- Low VOC's
- Non-Flammable
- Freeze / Thaw stable
- CRI GLP Certified

SURFACE PREPARATION

Integra 2 Adhesive may be used over properly prepared concrete, wood, terrazzo, steel and other suitable substrates. Bring high spots level by sanding, grinding etc., fill and smooth low spots or rough surface. Use only high-quality Portland cement-based materials with a minimum 3000 psi compressive strength (ASTM C109). Mix with water only, do not use latex. The subfloor must be clean (free of dirt, dust, old adhesives, grease, wax, or other contaminants that may stain or prevent adhesion), smooth, flat, sound, fit for purpose, and free of movement. Concrete subfloors must be fully cured, clean, free from curing agents.

No Moisture Testing Required for Integra HP backing when installed with Integra 2 Adhesive provided the slab meets ASTM F-710 (except where explicitly allowed by our installation instructions) including proof of the presence of an intact moisture vapor retarder per ASTM E-1745 (Class B Minimum) in direct contact with the concrete slab, no standing water, no free liquids present, no evidence of moisture staining, no hydrostatic pressure and a pH level that does not exceed 12. Mannington's Universal Primer is required prior to installation of Integra 2 adhesive.

For all other condition's or when the above requirements are not met, the limits are in-situ relative humidity (maximum RH 95% per ASTM F2170) and/or moisture vapor emissions (maximum 10 lbs./1,000 SF/24 hrs. per ASTM F1869). Concrete must have a 12 pH (ASTM F710). On-grade and below-grade concrete slabs must have an approved vapor retarder (ASTM E1745) which is properly installed (ASTM E1643).

INSTALLATION

After spreading the Integra 2 Adhesive onto the subfloor, adhesive should never be allowed to skim over or begin drying from the surface before installing HP backing carpet. Wet adhesive may need several days for moisture to escape sufficiently for the adhesive to develop a full bond that comes only with drying and curing. The dry and cure time on the adhesive will have an impact based on the temperature, humidity, and porosity of the subfloor.

NOTE: For product warranty on Integra backing the Integra 2 adhesive and the MT-800 seam sealer and MT-900 seam cleaner must be used.

Specification

TROWEL SIZE AND COVERAGE

Over Porous / Non-Porous Surfaces: 1/16" x 1/16" x 1/16" square notched trowel / Coverage: 15 sq yd/gal

PACKAGING

Size: 4 gallons
Order Code: 189625
Weight: 45 lbs.

STORAGE

Store Integra 2 Adhesive in climate controlled interior locations only between 50 - 90°F. Protect from freezing. Integra 2 Adhesive is freeze/thaw stable to 10°F, but prolonged or repeated freeze/thaw cycles should be avoided. Should the Integra 2 Adhesive freeze, allow to thaw at room temperature and stir well before using. Integra 2 Adhesive has a one-year shelf life on unopened containers.

CLEAN UP

Wet adhesive should be immediately removed from tools or surfaces with a clean, soapy, damp cloth. Dried adhesive can be removed with denatured alcohol or adhesive solvent. Wet adhesive should be immediately removed from tools or surfaces with a clean, soapy, damp cloth. Dried adhesive can be removed with denatured alcohol, mineral spirits or adhesive solvent.

WARRANTY

Integra 2 Adhesive is manufactured according to exacting quality control standards specifically for the installation of Mannington's Integra HP backing carpet. Integra 2 Adhesive is warranted to be free from manufacturing defects for one year on unopened containers. Mannington flooring products are backed by a limited Commercial Warranty for bond and manufacturing defects. The warranty term matches the backing warranty which will vary by type.

M-Guard Ultra Premium Adhesive Specification

DESCRIPTION

M-Guard Ultra Premium Adhesive is a solvent-free, premium carpet adhesive is a high solid, Ultra premium commercial carpet adhesive formulated specifically to provide superior bonding strength for installing Mannington broadloom latex and polyurethane backed carpets. It is suitable for both residential and commercial climate-controlled environments. M-Guard Ultra Premium Adhesive is the appropriate adhesive for installing Mannington's woven synthetic UltraBac RE and **DeltaLoc cushion backed carpet** over porous and non-porous subfloors.

ADVANTAGES

- No Solvents
- Low VOC's
- Non-Flammable
- Freeze / Thaw stable
- GLP Certified

SURFACE PREPARATION

M-Guard Ultra Premium Adhesive may be used over properly **prepared concrete, wood, terrazzo, steel and other suitable substrates. Bring high spots level by sanding, grinding** etc., fill and smooth low spots or rough surface. Use only high-quality Portland cement-based materials with a minimum 3000 psi compressive strength (ASTM C109). Mix with water only, do not use latex. The subfloor must be clean (free of dirt, dust, old adhesives, grease, wax, or other contaminants that may stain or prevent adhesion), smooth, flat, sound, fit for purpose, and free of movement. Concrete subfloors must be fully cured, clean, free from curing agents.

No Moisture Testing Required for UltraBac RE when installed with M-Guard Ultra Adhesive provided the slab meets ASTM F-710 (except where explicitly allowed by our installation instructions) including proof of the presence of an intact moisture vapor retarder per ASTM E-1745 (Class B or Better) in direct contact with the concrete slab, no standing water, no free liquids present, no evidence of moisture staining, no hydrostatic pressure and a pH level that does not exceed 12. Mannington's Universal Primer is required prior to installation of M-Guard Ultra adhesive.

For all other condition's or when the above requirements are not met, the limits are in-situ relative humidity (maximum RH 95% per ASTM F2170) and/or moisture vapor emissions (maximum 10 lbs./1,000 SF/24 hrs. per ASTM F1869). Concrete must have a 12 pH (ASTM F710). On-grade and below-grade concrete slabs must have an approved vapor retarder (ASTM E1745) which is properly installed (ASTM E1643). **Mannington's Universal Primer is required prior to installation of M-Guard Ultra adhesive.**

INSTALLATION

Apply M-Gaurd Ultra Premium Adhesive full spread with a 1/8" x 1/8" x 1/8" U-notched towel. Allow adhesive to remain open long enough to develop tack but remain wet enough to ensure transfer to the backing. Adhesive transfer must be 100%. If the 1/8" U-notched trowel or porosity of the sub-floor does not provide 100% transfer, then a deeper notched trowel may be required. Roll immediately using a 75-100 lb. roller and reroll 3-4 hours after installation.

Specification

TROWEL SIZE AND COVERAGE

Over Porous / Non-Porous Surfaces: 1/8" x 1/8" x 1/8" U notched trowel / Coverage: 6-8 sq. yd/gal

PACKAGING

Size: 4 gallons
Order Code: 190714
Weight: 40 lbs.

STORAGE

Store adhesive in climate controlled interior locations only between 50 - 90°F. Protect from freezing. Adhesive has a two-year shelf life on unopened containers.

CLEAN UP

Wet adhesive should be immediately removed from tools or surfaces with a clean, soapy, damp cloth. Dried adhesive can be removed with denatured alcohol, mineral spirits or adhesive solvent.

WARRANTY

M-Guard Ultra Premium Adhesive is manufactured according to exacting quality control standards specifically for the installation of Mannington's broadloom woven synthetic (UltraBac) and urethane cushion (DeltaLoc) backed carpet. M-Guard Ultra Premium Adhesive is warranted to be free from manufacturing defects for one year. Mannington flooring products are backed by a limited Commercial Warranty for bond and manufacturing defects. The warranty term matches the backing warranty which will vary by type.
