

**FROM EVIDENCE-BASED DESIGN  
TO MEANINGFUL USE**

Healthcare facilities are not “one product fits all” places, so at Mannington we incorporate evidence-based design to create flooring that fits the unique needs of different spaces. We put products through rigorous performance testing and ensure the entire portfolio works together seamlessly—helping you shape healing environments with dignity, compassion and connection.

## CARPET

Modular and broadloom styles feature performance backing, stain defying XGuard technology and bleach resistant ColorSafe technology.

## RESILIENT SHEET

Heterogenous and homogeneous sheet provide advanced Quantum Guard technology with superior cleanability and wear resistance as well as enhanced slip retardance.

## SUCCESS IS IN OUR SCIENCE

Quantum Guard Elite is a patent-pending technology that provides the ultimate performance solution for resilient sheet flooring and LVT.

- Engineered for ease of cleaning and reduced maintenance costs
- Industry's highest scratch/abrasion resistance
- Advanced stain resistance
- Excellent slip resistance

## RUBBER

Tiles, sheet, stair treads, wall base and finishing accessories all provide superior acoustic performance and appearance retention.

## LVT

Wide range of aesthetics offer advanced Quantum Guard technology and easy maintenance. QuickStix pre-applied adhesive reduces downtime and is suitable on subfloors up to 99% RH.

## SEAM + ADVANTAGE

Mannington healthcare products are designed to allow welding for truly seamless transitions from hard to soft surfaces. Welding helps with infection control, better patient mobility and long term performance. We offer a 10 year warranty for seam integrity.
