

Perpetual

Modular Stair Treads

A SOLUTION TO LONG-
WIDTH STAIRWAYS

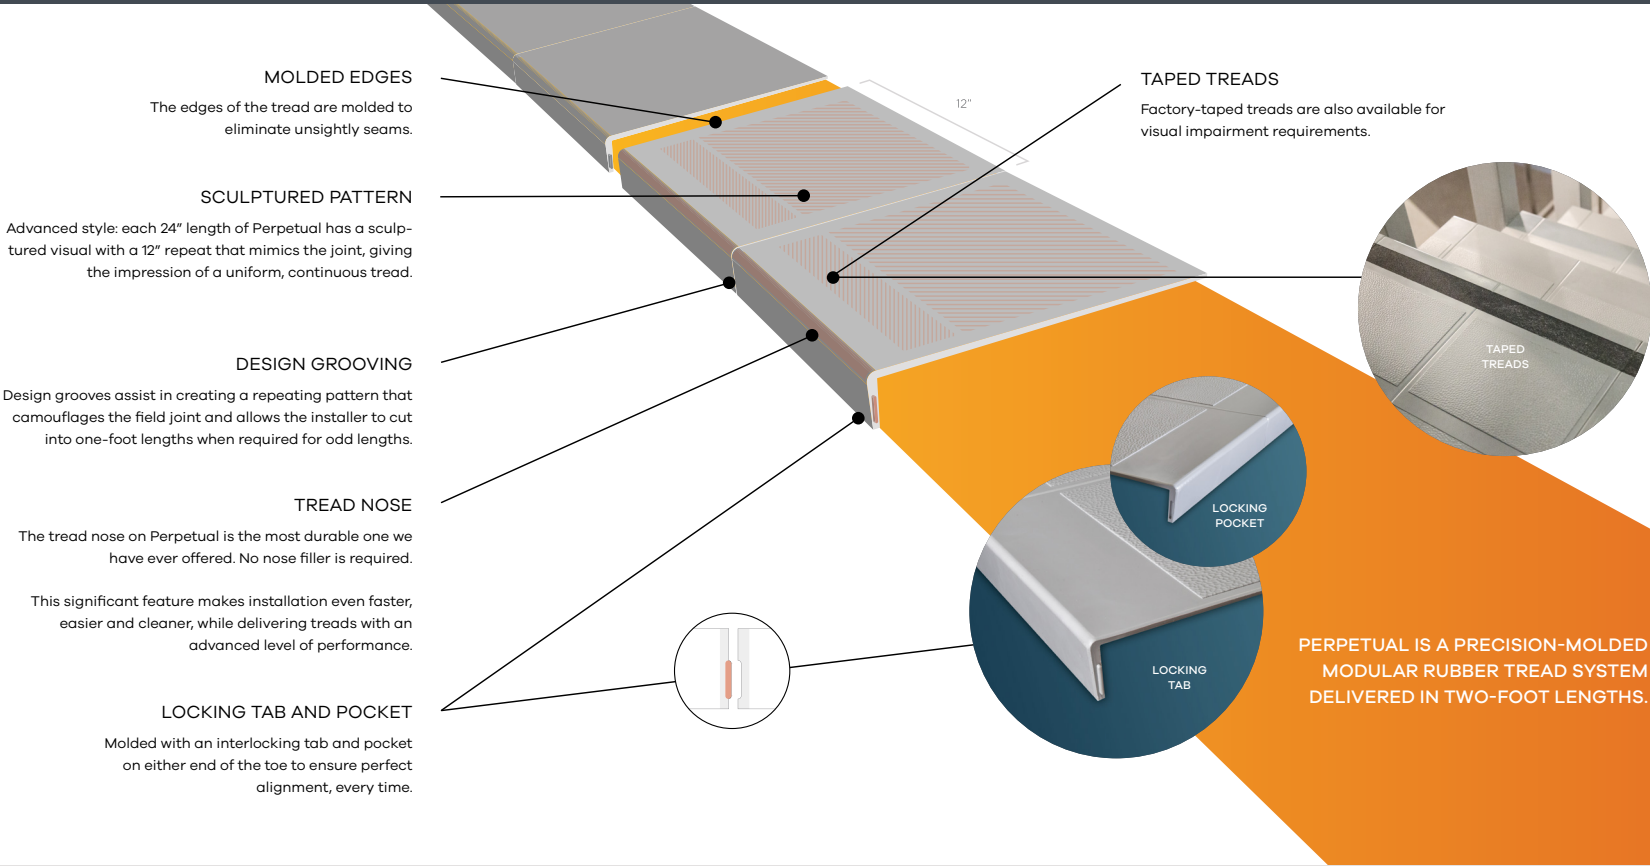

Perpetual Modular Stair Treads are the easy and unique solution to stairways of varying widths.

Delivered in easy-to-install two-foot lengths, Perpetual eliminates the costly and difficult shipping and handling associated with long stair treads.

The precision molded tread includes an interlocking “tab & pocket” at the ends of the toe to ensure perfect alignment every time.

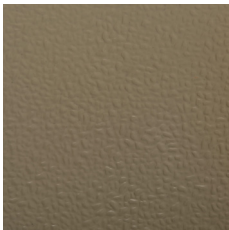

The edges of the tread are molded to provide a seamless appearance, eliminating the unsightly seams that result from butted treads.

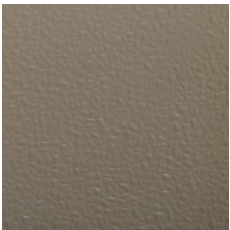

Simply install the number needed to create any length of tread, quickly and easily.
Eliminate costly and difficult shipping and handling associated with long stair treads.
