

Sylvan Collection

where structure and nature meet

Contemporary, sophisticated and **flexible** —

the Sylvan Collection creates a space where the industrial and the organic interact.

The design team from Hendrick Inc. partnered with Mannington Commercial to create patterns and colors that bring **relevance** and **freshness** to contemporary landscapes.

Inspired by the intersection of the **architectural** and the **natural**,

the Sylvan designs communicate built interpretations of organic forms, lending a modern, urban spirit applicable to a broad platform of commercial spaces.
