

frē lock

FULLY RELEASABLE ECO-SAVVY

modular installation system

frē lock is redefining modular tile installation as we know it. frē lock, Mannington's fully releasable pressure sensitive adhesive system, is now available on Mannington modular styles manufactured with Infinity® and Infinity® RE high-performance backing systems. frē lock is applied directly to the back of each carpet tile as part of the manufacturing process rather than at the time of installation. frē lock eliminates the need to buy, ship, store and apply adhesives.

eco-savvy modular installation system

- Cost-savings – no need for adhesives, buckets and trowels
- No adhesive shipping required – less cost and energy
- Tiles are packaged back-to-back, eliminating transfer paper waste
- No ventilation concerns, no odor and no spills
- Eliminates downtime associated with traditional adhesives
- Allows for immediate floor traffic
- Ideal for installation over raised access floors

installation made easy

- Remove old carpet, prep floor
- Peel apart frē lock modular tiles
- Press into place

environmental attributes

- Infinity® RE contains a minimum of 30% total recycled content, including a minimum of 10% post-consumer recycled content by total product weight. Certified NSF/ANSI-140 Platinum
- Infinity® Modular contains pre-consumer recycled content. Certified NSF/ANSI-140 Gold with Antron fiber
- Meets CRI Green Label Plus certification.
- Carpet can be reclaimed through Mannington's LOOP® carpet reclamation program
- ISO 14001 registered manufacturing facility.
- Contributes to LEED credits
