FEATURES

SafeWalks is an attractive, slip-retardant tile that is recommended for areas where slip/fall is a concern.

SafeWalks quartz content provides a slip-retardant surface. Through-pattern construction offers exceptional durability even under the heaviest rolling loads or high traffic areas. Available in 12" x 12" tile sizes.

Ease of maintenance.

Superior service and stock availability.

Limited 5 Year Commercial Warranty.

- Composed of 85% limestone, an abundant natural resource.
- Certified under FloorScore – an independent third party IAQ verification system for low emitting flooring. Approved as CHPS 01350 compliant and recognized in LEED EQ Credit 4.3
- Adhesive meets VOC content limit of SCAQMD Rule #1168
- May contribute to LEED Credits
